NOTICE OF CORRESPONDENCE RECEIVED BY THE COURT

The Court has received and reviewed the attached correspondence and relevant petition, described below, from interested persons in the above-captioned cases. Although the Court cannot respond individually to all of those who have expressed their thoughts or concerns, the Court is deeply mindful of the impact of the fiscal crisis on lives, institutions, and expectations, and of the importance of the issues that are raised in these unprecedented cases.

1. Letters dated October 11, 2018 from Carlos Sumpter.
2. Letter dated October 11, 2018 from Stephen Mangiaracina.
3. Letter dated October 12, 2018 from Seema Balwada.
4. Letter dated October 19, 2018 from Seymour Finder.

"Better it is to be of an humble spirit with the lowly, than to divide the spoil with the proud "

Proverbs 16:19

Hon. Judge Laura Taylor Swain

U.S. District Court - San Juan

Your Honor :

Peace be with you in Jesus our Lord and Savior.

Madam Judge, austerity demanded by creditors during a debt crisis is self defeating.

Austerity during a depression makes our debt problem worse. It strangles our economy and reduces tax revenue.

Puerto Rico is caught up in a dollar strait jacket - strapped for cash and devoid of future investors.

Vulture funds wish to obtain valuable assets at knock down prices, eradicating any form of sovereignty left, stating that whoever goes against their efforts he or she will be pushed.

Your Honor, I don't think the people of Puerto Rico understand the human consequences of such debt restructuring process.

Your Honor, there is a global protocol in place - it's being done before. Globalization and disaster capitalism do exist. It is public information. Rescently reaffirmed by the POTUS in his UN General Assembly speech.

Your Honor, Natalia Jaresko was instrumental at Ukraine's restructuring process and will be successful in Puerto Rico if justice isn't served.

I humbly insist, to help our devastated territory engage into an awakening from our irrational state of denial. This precedes disaster for Puerto Rico.

Your Honor, the Commonwealth has no direct IMF drawing resources - no access to its technical assistance. It is the Secretary of the Treasury who requests it. We are at risk of entering an irreversible downward spiral, an inflationary depression period, in which the more we pay our creditors, the

more we owe them.

Your Honor, the World Bank is comparing our territory to jurisdictions such as Haiti or Shri Lanka.

Madam, bondholders don't care about our people. They know that there will be a negative growth on our economy of at least a 20% between 2019 - 2031.

Your Honor, for that reason their payday needs to be ASAP as they will rush to siphoned federal funds intended for fixing our island.

Madam Judge, it is time to stop this financial predators before they destroy our island.

Sincerely,

Carlos Sumpter M.A.

Sent via Email

Hon. Laura Taylor Swain

U.S. District Court S.D.N.Y.

500 Pearl Street

New York, NY 10007

My name is Stephen T. Mangiaracina, Esq. I am a COFINA junior bondholder.

On October 3, 2018, October 1, 2018 and September 20, 2018 I sent you letters via email with attachments regarding the above. I ask that said letters be considered as if stated herein.

Annexed hereto as Attachment A is BNY Mellon's August 14, 2018 Notice to Holders of Puerto Rico Sales Tax Financing Corporation Sales Tax Revenue Bonds. Attached to it as Annex A is your Procedures Order; Account Balances as of August 1, 2018 as Annex B; Governor Rossello's Announcement of Agreement with COFINA bondholder as Annex C.

In my earlier letters to you referenced above, I opined that you were aiding and abetting what I believe is a criminal enterprise. While you had the power to direct the Procedures Order to BNY Mellon, there was no basis or right to do so. As to COFINA, the Court has one judicial function; that is to decide the summary judgment motion now before you for 6 months, as to whether it was formed within the bounds of Puerto Rico's Constitution.

Your July 24, 2018 Procedures Order to BNY Mellon was in effect an executive act on behalf of the Oversight Board and the Commonwealth for their benefit. The settlement representation made to BNY Mellon gets its birth from an illegal filing on May 5, 2017 of which you had record notice, to give the Oversight Board control over COFINA to get us where we are today. I sent you letters, and so did other retail COFINA junior bondholders, expressing unhappiness with the so called settlement. We were never included

With notice of this displeasure, you ordered BNY Mellon to comply with your Order anyway. This also must have put the trustee, of sales tax revenues, who has fiduciary responsibilities to COFINA bondholders, in an uncomfortable awkward position. This Order came under the cover of lawful authority, which I believe you had no right to use under the circumstances.

The attempt to wrongfully take the property of the secured COFINA bondholder for the benefit of the Commonwealth raises a criminal issue of intent. What happened on May 5, 2017 could be seen as the acts of a criminal enterprise which continues to the present with its contrived settlement attempt.

From my perspective, as such a bondholder, I see this as a conspiracy to wrongfully take what rightfully belongs to me and thousands of others similarly situated. The RICO Act was enacted to address crimes committed by underworld mobsters. Perhaps there is room in the Act or elsewhere under federal criminal statutes, to investigate what is going on here. The only difference I see is that the Oversight Board, Governor Rossallo and COFINA are trying to get their actions anointed by a federal judge.

The Oversight Board and their associates, who are attempting to take the property of COFINA bondholders for the benefit of the Commonwealth already admitted to this and acted in furtherance of this takeover. If mobsters go to prison for committing such acts, shouldn't these people face consequences for their actions which are causing grave harm to so many people.

As to jurisdiction, would be victims are domiciled all over the United States. Our property, which the perpetrators are looking to take from us is here in the States with NYB Mellon and easily identifiable.

As to injury, a stay has been placed on NYB Mellon from giving us money due; three interest

payments to date and your Procedure Order provides that when the settlement is effected, we will get less than what our secured interest provides, a clear violates of PROMESA.

In refusing to decide the summary judgment motion before you by repeatedly granting stays to the Oversight Board, you have put COFINA bondholders under increased duress to accept a proposed settlement contrived illegally. Many live off the interest payments now stayed for almost 1 ½ years. Your Procedures Order to NYB Mellon never should have happened, nor immersing yourself in pushing this so called settlement that would be hurtful to so many COFINA junior bondholders, who you should be protecting rather than let us be treated as road kill.

Essentially, a Judge's job description is to call balls and strikes. As I see it, you have joined one of the teams and have expressed no regard for the other, the COFINA junior bondholders.

I have given no thought to attributing mens rea to you. Yet those whom I believe have criminal intent in trying to take my property, that of my family and others, from us, could not succeed, to where we are today without your proactive involvement.

As a practical matter, I no longer expect that you will follow my request to refer what I set forth, to the Department of Justice for investigation of criminal conduct.

Thank you.

Stephen T. Mangiaracina, Esq.

### **Bondholders Seek Justice Against Puerto Rico Government Fraud**

Dear Judge Swain & Chairman Bishop,

Questions concerning fraud by the Puerto Rico government and its agencies are front and center.

Unlike the United States where strong enforcement action is taken against fraudulent municipal issuers, fraud in Puerto Rico's finances, debt issuances and government operations continue to go unchecked.

More than \$1 billion in fraudulent profits appear to have been pocketed by PREPA and its complex cartel. PREPA violated the Racketeer Influenced Corrupt Organizations Act (RICO) by overcharging customers for fuel surcharges, Islanders allege. PREPA and others falsified lab results to pass off lower quality non-compliant fuel oil as compliant while billing customers for higher priced compliant fuel oil. Judge Jay Gregory Garcia has granted class action certification to PREPA racketeering allegations. Puerto Rico bond investors echo the concerns raised in the RICO class action lawsuit. A pattern of misrepresentation and conspiracy seems to have been the norm for Puerto Rico debt issuers.

While U.S. state agencies cannot spend beyond amounts appropriated by the legislature, the Puerto Rico government allowed its agencies to spend beyond budget appropriations without any justification or supplemental appropriation. The Government Accountability Office opined in May 2018 that inadequate financial management, weak oversight and questionable policy decisions led to Puerto Rico's persistent deficits. Former Puerto Rico officials acknowledged to congressional researchers that unethical politicians frequently overestimated the Island's revenues when developing annual budgets.

It is now common knowledge Puerto Rico administrations have concealed investment risks from investors. Lack of and misleading financial information barred rating agencies and Puerto Rico's bondholders from properly assessing the Island's financial condition. The latest available 2015 audit is moot as it arrived three years past due and is full of disclaimers. Puerto Rico's credit unions claim that Puerto Rico's government used false statements and embezzlement, while operating in a fiduciary role, to lure the unions to purchase Puerto Rico bonds. The Islands' low-income investors of Puerto Rico bonds ask that

their claims against Puerto Rico, its governor, Oversight Board and others are non-dischargeable and unimpaired by the filing of the Title III petition because bond investors are victims of fraud.

Puerto Rico maintained investment grade ratings until February 2014, even as its financial condition was deteriorating. Legal framework that prioritizes debt service is viewed positive for credit ratings. Puerto Rico has disregarded legal framework that protects bondholders' rights. Puerto Rico's constitution protects bondholders as it requires the Island to pay debt service on public debt before disbursing funds for other purposes. Triple tax-exempt status and investment grade ratings made Puerto Rico bonds attractive and seduced retail bond investors. The U.S. Government gave Puerto Rico tax exempt status, but did not monitor the corrupt Puerto Rico Government. Now seduced and misled individual bondholders are being forced to bailout a corrupt Government.

As Chairman Bishop noted in his June 2018 Amicus Brief, decades of mismanagement by the Puerto Rican government and its agencies have created the dire economic circumstances faced by the Puerto Rican people. The U.S. Congress requires the Commonwealth to deal fairly with its existing creditors and respect their rights, yet Congress has done nothing other than watch Puerto Rico ignore the intent of PROMESA.

A rising tide of adversary proceedings is ahead of the Title III court as lawyers rack up huge fees. Amid Puerto Rico's confidential mediations with a select few institutions and hedge funds in court, very little information on the maze of legal manipulation is available to the retail bondholder. In an earlier correspondence I showcased how the settlement of the Commonwealth-COFINA Dispute is inequitable to COFINA Junior bondholders, who are unrepresented in the courtroom and not included in mediation.

Retail investors are the largest holders of municipal debt, they hold over 70% of the municipal bond market. In the wake of the 2008 financial crisis, disclosure requirements and regulations protecting the \$4 trillion municipal debt market were strengthened. Puerto Rico is being allowed to make a farce of municipal bond market standards and legal precedent.

## **MUNI INVESTOR PROTECTIONS ARE REINFORCED BY JUDGEMENTS AGAINST FRAUD**

Recent civil enforcement actions and criminal prosecutions against fraud by debt issuers are gaining the attention of municipal bond investors:

- Town of Ramapo, New York: In 2016, SEC charged Ramapo, NY, its local development corporation and four town officials for concealing a deteriorating financial outlook over a \$60 million baseball stadium. Concurrently, federal prosecutors brought parallel criminal charges against the town supervisor and the project developer. In 2017, a judgement permanently enjoining the town and the developer from violating securities laws and requiring them to retain an independent consultant and independent auditing firm as well as 30-month prison sentence for the former town supervisor.
- City of Harvey, Illinois: Temporary restraining order on new bond issues sought in 2013 by Public Finance Abuse Unit. A 2014 judgement required the City to obtain independent disclosure counsel for any new offerings.
- Greater Wenatchee (Washington) Regional Facilities District: Civil penalties were brought against the issuer.
- Mayor of City of Allen Park, Michigan: Controlling person liability was sought as the former Mayor was held liable for a municipal bond offering to build a movie studio project
- Port Authority of New York and New Jersey: \$400,000 civil penalties after the SEC brought an enforcement action on securities offerings that were outside the scope of the Port Authority's mandate.
- City of Bell, California: Eight top city officials were arrested. After they were charged with misappropriating funds from city government to the tune of \$5.5 million, and garnering salaries as

high \$800,000, more than quadruple the California governor's salary. The mayor ultimately pled no contest to 69 felonies, and the trials of the various city officials have been riddled with allegations of voter fraud, extortion of local businesses, taking of illegal loans from the city, and manipulation of the pension system.

- City of Hercules, California: In 2013, the city of Hercules, California settled a lawsuit against former City Manager Nelson Oliva and his family company for \$3.15 million, virtually the entire amount it sought.

The above settlements and judgements serve to vindicate investors and U.S. taxpayer. It is important for investors to see that wrongdoers are taken to task. Individual investors cannot understand why Puerto Rico is being allowed to manipulate PROMESA and municipal market legal precedent in order to cheat retail investors.

In Puerto Rico, signs of unchecked corruption are self-evident. From the flashy lifestyle of an elitist governor to the morgue scandal and unused FEMA aid supplies, there is hardly any doubt that mismanagement and corruption are rampant in the Island's current administration. The results of a forensic investigation of 800 government bank accounts are unknown, even though these accounts, at one time hidden from the court, surfaced close to a year ago.

Although United States governments generally experience lower levels of corruption, U.S. local governments and their elected officials have been brought to task when fraud was detected. Not only does the SEC and/or federal prosecutors impose strict penalties on fraudulent bond issuers, such issuers incur the cost of higher bond yields due to the enforcement proceedings and the credit deterioration. Fraud by government debt issuers has far reaching implications: most of all, it limits capital access. As far as the individual investor is concerned Puerto Rico's access to the municipal market is a pipe dream.

No municipal bond fraud has ever been larger than the Puerto Rico Government selling COFINA bonds by continuously stating in various venues that dedicated COFINA funds can only be used to pay bondholders and are not available to the Commonwealth. Recently Governor Rosselló touted a new law will be passed that will give the Commonwealth access to \$425 million per year of COFINA bondholders dedicated funds. **An action that would be deemed unconstitutional if exercised by any state in our nation.**

Judge Swain, defrauded bondholders, including Islanders, are seeking justice in your esteemed federal court. The Court's spotlight on fraud allegations brought against Puerto Rico's government will help move Puerto Rico towards capital access.

Judge Swain, Please do not allow fraud and deceit to continue, it contributes towards the Island's physical and financial ruin.

**Municipal bond investors now believe Puerto Rico is corrupt, unwilling to pay its debt and their intent is to cheat bondholders.**

Puerto Rico bondholders must not be forced to bear the brunt of government fraud and deceit.

Sincerely,

Seema Balwada, CFA

Dear Judge Swain,

I am a 78 year old small investor in P.R. Sales Tax bonds. I have been patiently waiting to hear that you have made a final ruling in this case.

Unfortunately there has not been one so far. The investors have been ignored in favor of the lawyers. Reminiscent of Dickens story of Jarndyce v. Jarndyce.

I understand that P.R. is in financial trouble caused by years of poor fiscal management. It is not your responsibly to allow them to solve all there problems in one fell swoop.

I do not object to them trying to negotiate some rearrangement of the obligations. I reasonable offer on their part may be acceptable, but again it has to be reasonable.

What I do object to strongly is that the payment of interest on these obligations having been fully funded are not allowed to be released.

Are you trying to destroy a vehicle used my financially troubled municipalities' to secure funding with the promise of a revenue stream to guaranty payment of interest.

This is not conceivable as a solution to one entity without far flung ramification to many others. I also venture that by no action you may establish a precedent that will be studied for years to come.

I am not a lawyer but I have tried over the years to live up to my obligations and I expect others to do the same. Please do not destroy my belief in the law.

Seymour Finder

October 22, 2018

Hon. Laura Taylor Swain

United States District Court

500 Pearl Street,

New York, New York 10007-1312

Your Honor:

I am writing to you for the second time to beg you to listen to our plea. My husband and I are junior Cofina bondholders. We also have a small stake on the Pension Bonds and PREPA, but we are mainly Junior Cofinas.

We purchased Cofina at par because they were a safe investment, Banco Popular never disclosed that they were junior or that the Senior had an acceleration Clause. We have a severely disabled daughter that has cerebral palsy and we invested most of the money she and I received as part of the settlement, in Cofina bonds, because they were supposedly very safe.

Your Honor, for many years I worked as a Bank HR Director, with a very good salary, but I never purchased any luxury at all, all my clothes comes for Ross and other discount stores, and all expenses were carefully budgeted to be able to save and afford an early retirement to care for my daughter, as for many years I worked 10 and 12 hrs. a day and sacrificed time with her.

Cofina is not bankrupted and the juniors have a secured claim as good as the seniors. Yes they have to be paid first, but there is enough for both. I understand that we will not get 100% to help Puerto Rico with its crisis and help the GOs to get paid, but 56-58% on a secured bond which source of repayment is intact or may have even increased, it is not fair to us.

The seniors Cofina, made the decision for us to give up our collateral to the Puerto Rico Government instead of getting a decision about the legality of the bonds.

I was born in Cuba where the Government can take everybody's assets and capital and nobody can do anything about it, not even complain. I never thought something of the kind will happen to me in my new country. Puerto Rico government complain of discrimination because they were not able to declare bankruptcy, but none of the

states can, only municipalities and certainly none of them can get what Promesa offers to Puerto Rico. How can any individual invest in a place where Congress can come and change the rules of the game, just like this.

We the Cofina Juniors are getting less than the BGF bondholders, the BGF is bankrupted and the bonds were to be paid by appropriations. They are getting 55% but at an interest rate of 7.5%.

The last thing that concern me is that some people are saying that even if our bonds were all CIBs with the new bonds we may get CABs because we all get a mix of everything, so that means that we will get even less interest. I cannot understand how we can get CABs when our bonds were only CIBs.

Your Honor, I still have hope that you can bring some justice to this equation. Please be fair to us.

Respectfully,

Iliana Paz Castellanos

New York, NY 10286

Dear Judge Swain,

**AS A WELL-INFORMED COFINA SUBORDINATE BONDHOLDER “I OBJECT” TO THE OVERSIGHT BOARD’S PROPOSED COFINA PLAN OF ADJUSTMENT: THIS DISCHARGE OF COFINA DEBT IS FRAUDULENT AND INTENDED TO DEPRIVE SECURED BONDHOLDERS OF PAYMENT.**

**PROMESA specifically states Title VI negotiations are indispensable for eligibility into Title III... COFINA was not eligible to enter Title III because it was never in Title VI, therefore, the COFINA Plan of Adjustment is not legal, the Plan cannot be put to a vote and cannot be approved by the Court. Should the Court approve the Plan...PROMESA is a failure.**

**The Latest Puerto Rico Fiscal Plan (created without audited financials) and COFINA Plan of Adjustment blatantly abuse the intent of PROMESA as both, if approved by the Court, will reward HYPOCRISY, CORRUPTION and TREACHERY.**

The passage of PROMESA was initiated by a need for Fiscal discipline and transparency within Puerto Rico. The purpose of the Oversight Board is to provide a method for a covered territory to achieve Fiscal responsibility and access to Capital Markets. Congress determined the Commonwealth’s financial house must be placed in order to remedy the decades of financial mismanagement that led to the present crisis. Congress required the Commonwealth to deal fairly with its existing creditors and respect their rights to enable conditions by which Puerto Rico could obtain market access at reasonable rates. The above was taken from Rep. Rob Bishop’s Amicus Brief filed 6/29/2018 with the U.S. Court of Appeals for the First Circuit.

Rep. Bishop clearly stated “PROMESA built Fiscal Reform and creditors protection into the requirements for a Fiscal Plan. Among other provisions, a Fiscal Plan “shall” respect the relative lawful priorities or lawful liens in place prior to enactment of PROMESA, and ensure that the assets of one territorial instrumentality are not transferred or used for the benefit of another.”

**In the opinion of many Puerto Rico observers the Puerto Rico government and Oversight Board have blatantly abused the intent of PROMESA and have demonstrated PROMESA is a failure.**

**Claims of apparent HYPOCRISY, CORRUPTION and TREACHERY are supported by the following:**

**HYPOCRISY:** During the 2006 Puerto Rico financial crisis the Commonwealth created COFINA. Investors had lost confidence in the Puerto Rico government’s ability to manage the finances of the Commonwealth. Since investors did not trust the Puerto Rico government the Commonwealth could not access the bond market at reasonable rates. The main components of COFINA bonds that attracted investors were a **Statutory Lien** on

pledged Sales Tax revenue and the fact that this dedicated revenue source was not available under any circumstances to the Puerto Rico government, who had lost the trust of investors. For the next 10 years the Puerto Rico government under 3 governors, legislatures and Department of Justices continued to assure COFINA bondholders and inform General Obligation bond investors that pledged COFINA revenues secured by a **Statutory Lien** were not available to the Commonwealth.

Today the Financial Oversight Board supported by the Puerto Rico government formally announced a Plan of Adjustment/Restructuring of COFINA debt. COFINA bondholders would receive new COFINA bonds secured by the same **Statutory Lien**. Senior bondholders will receive a 93% recovery and Subordinate bondholders who are secured by the same **Statutory Lien**, will receive only a 56% recovery. I repeat current COFINA bondholders will receive new COFINA bonds secured by the same **Statutory Lien** that previously guaranteed that pledged revenues were unavailable to the Commonwealth. It is very difficult for Subordinate bondholders to accept that a Court of law would approve the Plan of Adjustment.

The Puerto Rico government promised and passed laws that assured that all COFINA bondholders are secured by a Statutory Lien. Recently the Puerto Rico government passed a new law. The new law allows the Puerto Rico government the ability to take \$425 million annually from COFINA bondholders, mainly Subordinate bondholders. **Puerto Rico has the equivalent of a third world rogue government the U.S. cannot or refuses to control. Therefore the U.S. must be held responsible for the actions of the morally corrupt Puerto Rico government.**

For 10 years Puerto Rico correctly stated payment on COFINA bonds is secure, now they say it is not secure. The irony is the new and future COFINA bonds will be [secured?] by the same **Statutory Lien**. The **Hypocritical** Oversight Board expects current Subordinate bondholders to accept a 56% recovery while they intend to offer future COFINA investors new Subordinate COFINA bonds at **100**. The Board and government seem to be out of touch with reality. There are very few, if any, individual retail investors who will trust Puerto Rico again. It is unclear how many COFINA bonds hedge fund insiders purchased during negotiations, which means before the deal was publicly announced.

**CORRUPTION:** Most professionals that follow Puerto Rico government actions would agree the Puerto Rico government is corrupt. A recent court filing claims over \$1 billion in fraudulent profits appear to have been pocketed by PREPA and its complex cartel. The claim alleges PREPA violated the RICO Act by overcharging customers (the Puerto Rico people) for fuel surcharges. This is just one example of hundreds of fraudulent contracts, jobs, illegal payments and FBI investigations that are ongoing and commonplace within the corrupt government. There is also a condoned underground economy equal to over 20% of the **lawless** Island's GDP.

**TREACHERY:** In March 2014 Puerto Rico issued \$3.5 billion of General Obligation bonds. The Official Offering Statement, as in previous General Obligation Official Statements, clearly stated COFINA dedicated revenue funds were not available to the General Fund of the Commonwealth. Prior to issuing the bonds the Commonwealth in January 2014 hired a restructuring firm without disclosing the hire to prospective investors. Approximately 1 year later Governor Padilla told the NY Times, Puerto Rico's debt is not payable. In essence it appears to many that Puerto Rico knew in March 2014 it would not be able to pay or would not be willing to pay this debt. **In essence Puerto Rico took \$3.5 billion from investors with no intention of paying it back.** It has become obvious a pattern of **treachery**, in form of fraudulent financials, can now be associated with many Puerto Rico debt issues. A former Puerto Rico governor called Puerto Rico debt a Ponzi scheme.

The above are an oversimplification of the **HYPOCRISY, CORRUPTION and TREACHERY** the government and Oversight Board have allowed or overlooked. The above examples are well documented and difficult to refute. **They would like bondholders to accept there are crimes, but there are no criminals.**

Puerto Rico debt restructuring has become a fiasco. During the process bondholders taking part in the negotiations, privy to non-public information, appear to have been allowed to unethically buy and sell specific bonds to strengthen their voting position. The process, if not investigated, will insure PROMESA will be a failure.

The whole situation seems illegal/unconstitutional and gets more ridiculous as the Court allows Puerto Rico to pay no interest to bondholders even though it now holds well over \$10 billion in cash due bondholders. Adding insult to bondholder injury, without the insight of audited financials, the Federal Oversight Board published another Fiscal Plan for the Commonwealth, without financials and being as negative as possible to bondholders. However, the new Plan illustrates that with a few realistic adjustments/reforms, expense caps and by including additional Medicaid payments Puerto Rico has the capacity to pay its contracted debt.

The major COFINA players still standing are hedge funds. These hedge funds now own billions of face value of COFINA bonds that individuals sold at very distressed prices, some sold bonds as low as 9 cents on the dollar. Individuals who were ill-advised and frightened by the Puerto Rico government's scare tactics lost billions of dollars. The U.S. government and the Court must assume some liability. The losses were incurred by innocent individuals, the victims of a manipulated process the U.S. and the court has allowed.

**Rep. Rob Bishop and many in the US Congress are aware that everything mentioned in my objection to the COFINA Plan of Adjustment is real.** The Oversight Board has been in place for well over 2 years and the last audited Commonwealth Financial Statement is for Fiscal 2014. Puerto Rico's self-proclaimed bankruptcy cannot be confirmed and should not be accepted as real without a current Audited Financial Statement, which is required by PROMESA. The Financial Oversight's financial projections have proven the Board to be as incompetent and dishonest as the Puerto Rico government. By Congress not addressing Puerto Rico's abuse of PROMESA they are supporting not only political corruption; they are forcing bondholders and the Puerto Rico people to continue to accept corruption and deception as the norm in Puerto Rico.

**The U.S. government knows Puerto Rico is corrupt** and unwilling to make a sincere effort to pay its debt. **Sophisticated investors now know Puerto Rico is corrupt** and unwilling to pay its debt. **Investors around the world now know Puerto Rico cannot be trusted** to honor contracts. **Allowing Puerto Rico and the Oversight Board to continue to disregard the intent of PROMESA makes the United States Congress responsible for the Puerto Rico government's actions and the actions of the Oversight Board** appointed by the U.S. Congress to enforce U.S. laws including PROMESA.

**The U.S. Congress made Puerto Rico bonds triple tax exempt, therefore, the U.S. Congress is responsible to Puerto Rico bondholders for not monitoring Puerto Rico debt issuance and not demanding PROMESA be followed as Congress intended.**

To date the Title III bankruptcy court seems to have ignored Rep. Bishop's Amicus Brief, which explained the intent of PROMESA. **Many bondholders believe the Title III Court has exasperated the Title III process.** The Court allowed the Oversight Board to place a solvent COFINA directly into Title III bankruptcy, completely bypassing PROMESA required Title VI negotiations.

**It would be seen as criminal to many if the Court approves any Plan of Adjustment based only on the Financial Oversight Board's projections.** For the first 3 months of the 2018/2019 fiscal year the Board's projections were off over \$350 million. The main driver being the corporate income tax category, which the Board and government said was suspect. **No Plan of Adjustment can be approved without clean audited current Commonwealth financials, most recent audited financials are from 2014.**

The Financial Oversight Board has established a \$1.5 billion war chest (bondholders money) to pay lawyers to fight bondholders. With that type of intimidation, which the Court has allowed, it is impossible for unrepresented and disorganized Subordinate COFINA bondholders to get legal counsel to represent them.

It appears Subordinate COFINA bondholders, who held the highest rated and were told by Puerto Rico the most secured debt issued by Puerto Rico, have no choice other than to rely on the court system.

**When the Court takes control of the situation by ordering Puerto Rico to pay interest on its debt the nonsense will cease and good faith consensual agreements will get done.**

Respectfully yours,

Maria Mercedes Navia

### **RETAIL HOLDERS OF JUNIOR COFINA BONDS QUESTION PLAN OF ADJUSTMENT**

Dear Judge Swain, Chairman Bishop and Mr. Alex Chang (Bond Trustee),

Thank you for publishing my letters to you dated January, April, June, August, September and October 2018.

As a Chartered Financial Analyst at a municipal bond specialist firm, I need to respond to numerous questions from thousands of retail investors holding millions of COFINA Bonds.

Retail holders of Junior COFINA bonds view the Plan inequitable. Comparative research suggests a Junior COFINA bond recovery closer to 80 cents rather than the Plan's 56.4 cents would be more equitable to retail holders of Junior COFINA Bonds.

Junior COFINA bondholders have sought answers, clarifications and explanations on many facets of the COFINA Disclosure Statement dated October 19, 2018. Please see below topmost concerns of retail investors of Junior COFINA bonds.

**First and foremost,** *Junior COFINA Bondholders seek a higher recovery closer to 80 cents.*

Anticipated summary judgement ruling on statutory lien is priced into 93 cent Senior COFINA recovery. In relation to Senior COFINA Senior Bonds, Junior COFINA Subordinate Bonds are **secured equally and ratably by a security interest in the Pledged Property**. Therefore, similar statutory lien protection is applicable to Junior COFINA bondholders. It is unjustified that Junior COFINA bonds face a 44 cent haircut, which is six times the haircut offered to Senior COFINA bonds. A higher recovery for Junior COFINA Bonds closer to 80 cents would be premised upon the anticipated summary judgement ruling developed after several months of hearings.

Junior COFINA Bondholders have a perfected and unavoidable lien in the Pledged Property and there is an enforceable subordination agreement whereby the Commonwealth has agreed to subordinate any interest

it may have in the Pledged Property to COFINA. A statutory lien is automatically enforceable at bond issuance without any need for action or authorization.

**Second, Is the COFINA Title Petition valid, Junior COFINA bondholders ask?**

COFINA, a solvent entity, did not satisfy many pre-conditions for a Title III filing: It bypassed Title VI, a necessary prerequisite for a Title III filing.

COFINA has sufficient sales tax revenue to repay both Senior and Junior COFINA Bonds. Fiscal 2018 Sales and Use Tax collections of \$2.5 billion cover the current dedicated **COFINA Pledged Sales Tax Base Amount of \$753 million securing both Senior COFINA and Junior COFINA Bonds 3.3x.** During the first quarter of 2019, Sales and Use tax collections of \$700 million exceeded budget projections and prior year collections by \$80 million.

With devious reasoning, COFINA's latest available audit includes a 'going concern' comment, which is based on its Title III filing. In reality, a strong track record to sales and use tax collections negates COFINA's Title III debt restructuring that failed to satisfy other pre-requisites as well. COFINA, a solvent entity, has no basis to file for Title III debt adjustment.

**Third, Why Should retail investors bail out Puerto Rico, majority retail-held Junior COFINA bondholders question.**

Puerto Rico has the ability to repay its debt. One year after Hurricane Maria, record high general fund revenues of \$833 million were collected in September 2019. The main driver is increased corporate income tax collections. The Island's economy is expected to grow 7.8% in the current fiscal year, 5.5% in 2020, 2.9% in 2021 and 2.5% in 2022. Additional \$20 billion in federal funds have been granted to the Island for its economic growth. General fund revenues \$2.24 billion for the first quarter of 2019 have surpassed budget by \$330 million and prior year by \$358 million. Over \$10 billion of cash available in Puerto Rico government bank accounts shows steady growth on the heels of growing general fund tax collections.

A higher tax capture rate could boost sales and use tax collections. Federal Reserve Bank of New York estimates that 23% of the Island's GDP is 'underground' and does not pay taxes. Corruption within Island's past and current administrations must not be bailed out by a Title III Plan of Adjustment burdening Junior COFINA bondholders with losses. Puerto Rico's self-proclaimed 'fiscal crisis' led to overly conservative budgets and hidden bank accounts, now under forensic investigation.

If COFINA Junior Bondholders were offered a higher recovery, the Commonwealth surplus would still be to the tune of \$15 billion. The Oversight Board certified fiscal plan estimates a surplus of \$17 billion over the next six years. This surplus reflects a '**taking**' of close to \$2 billion from COFINA Junior Bondholders unrepresented in controversial court mediations.

**Fourth, Was the Plan negotiated in good faith, Junior COFINA bondholders want to know?**

Concurrently mediating and purchasing Junior COFINA bonds at rock-bottom prices apparently led to self-dealing by some Institutions confidentially mediating the Commonwealth-COFINA Dispute. Over \$1 billion of Junior COFINA bonds were bought by some mediating Institutions between August 2017 and August 2018 by several institutions at prices ranging in the teens. Some institutions stand to make outsized gains doubling or tripling their investment in a short time with a 56.4% Junior COFINA recovery, while the 'buy and hold' retail municipal bond investor faces steep losses.

**"The Plan of Adjustment must have been approved in good faith and not by any means forbidden by law (11 U.S.C. § 1129(a)(3); PROMESA section 301(a))." Per Disclosure Statement**

**Fifth,** *Will hedge fund bulk purchases of zero interest Senior COFINA and distressed Junior Bonds stack the deck against retail bondholders' seeking an equitable restructuring?*

Municipal trading desks are witnessing a surge of interest in purchases of large blocks of Junior COFINA bonds. It is anyone's guess that this interest comes from institutional bondholders, who are the majority owners of Senior COFINA Bonds seeking to accumulate a vote bank favoring a 93 cent recovery for Senior COFINA bonds.

**THE DEBTOR HAS MADE ANOTHER OUTRAGEOUS REQUEST:**

***The Debtor has requested as part of the Solicitation Procedures Motion that the Court fix the record date to determine which creditors are entitled to vote on the Plan as November 20, 2018.***

**The Court intends to be fair to the holders of both Senior and Junior COFINA bondholders. Therefore, the Court should fix the record date to determine which creditors are entitled to vote on the Plan as of the date the Oversight Board put COFINA into Title III bankruptcy, which was on Friday May 4, 2017 or another day the Court deems more equitable than November 20, 2018.**

**A vote may be disregarded if the Title III Court determines that the votes were not procured in good faith. *Per Disclosure Statement***

**Sixth,** *Were there conflicts of interest within the mediating team, unrepresented retail Junior COFINA bondholders are anxious to be treated fairly.*

Some institutions confidentially mediating the Commonwealth-COFINA Dispute are cross-holders of various PR debt classes including COFINA Senior Bonds and general obligation bonds. Mediating team members' efforts to secure a higher overall recovery for their bond positions led to conflicts of interest resulting in a low-ball 56.4% recovery to the unrepresented majority-retail held COFINA Subordinate Bonds. It is no surprise that the conflicted 'settlement' of the Commonwealth-COFINA Dispute has led a dozen or so hedge funds holding about \$4.7 billion Puerto Rico general obligation bonds to form a 'supergroup' to negotiate a restructuring, the Wall Street Journal reported on October 23, 2018.

**Seventh,** *Can the Plan be 'crammed down' to dissenting classes when it fails tests of 'best interests of creditors', 'fair and equitable', 'must not discriminate unfairly', Junior COFINA bondholders contest the debtors claim of passing the test.*

**The Plan fails 'best interests of creditors' test.** The 'best interests of creditors' test under PROMESA requires the debtor establish that the proposed PLAN leaves creditors better off as a whole than would dismissal of the COFINA Title III case. Dismissal of COFINA Title III case would leave creditors better off than the Plan would. COFINA, a solvent entity, did not satisfy many pre-conditions for a Title III filing: first and foremost, it bypassed Title VI, a necessary prerequisite for a Title III filing. COFINA, a solvent entity, has no basis to file for Title III debt adjustment.

**The Plan fails the 'fair and equitable' test.** Without any basis for a Title III debt restructuring, a solvent and thriving COFINA is unreasonably forcing Junior COFINA bondholders to accept steep losses being created by the Commonwealth's misappropriation of Pledged Property granted under a statutory lien. COFINA's strong track of record sales tax collections are far removed from the debtors' claim that the Plan is 'fair and equitable'. The Plan states COFINA bondholders will receive all they can reasonably expect under the *circumstances of COFINA's Title III case.*

**The Plan fails the 'must not discriminate unfairly' test.** The Plan must treat a dissenting class substantially equal to any other class similarly situated based upon secured status and priority. Junior COFINA bondholders (\$9.9 billion outstanding) are offered an unreasonably low 56.4% recovery, relative to a 93

cent recovery on Senior COFINA bonds (\$7.7 billion claims outstanding). Both Senior COFINA and Junior COFINA bonds are secured equally and ratably by a security interest in the Pledged Property; Senior COFINA Senior bonds have priority over Junior COFINA bonds. COFINA revenues are sufficient to pay both Senior COFINA and Junior COFINA bonds.

**The Plan may be confirmed under the ‘cramdown’ provisions if along with other PROMESA Section 314(b) requirements, it (i) is fair and equitable and (ii) does not discriminate unfairly with respect to each impaired class that votes against the Plan. Per Disclosure Statement**

**Eight, Why does the Plan transfer \$1 billion to institutionally held Senior COFINA Bondholders from Bond Trustee held Pre 7/1/18 escrow fund to Mediating Team members and ZERO to retail held Junior COFINA bondholders...**

Close to \$1 billion of Bond Trustee held funds (pre-7/1/2018 \$1.2 billion) are set for distribution to Institutional holders of Senior COFINA bonds for mediating a lop-sided deal and zero to retail held Junior COFINA bonds.

#### **SCHEDULE 2**

##### **Application of BNYM Pre-7/1/2018 Debt Service Fund Monies**

Pre-7/1/2018 BNYM Cash	1,200,165,636
Rounding Amount Cash Est.*	25,000,000
Section 103 Cash (Pre-Petition Interest)	124,540,331
<b>PSA Consummation Costs</b>	<b>332,742,277</b>
On-Island Min Taxable Election	20,000,000
On-Island Flex Taxable Election	40,000,000
Remaining Set Aside of Funds	38,355,838
<b>Remaining Funds to Seniors</b>	<b>619,527,190</b>
TE COFINA Sr. Cash**	377,273,865
TAX COFINA Sr. Cash**	242,253,325

Under the Existing Bond Resolution, the Bank of New York Mellon acts as Trustee for the Existing Securities. Project Accounts (Funds transferred to the Debt Service Accounts) are accounts of COFINA that are maintained at BNYM and are subject to the lien of holders of **all** COFINA Bonds. The Plan contemplates a misappropriation of Bond Trustee held escrow funds

**Ninth, Does the COFINA Fiscal Plan Abide by PROMESA?**

The COFINA Fiscal Plan fails PROMESA’s 14 statutory requirements for Oversight Board certification of fiscal plan for a covered entity. PROMESA Section 201(b)(1)(N): Respect for relative lawful priorities or lawful liens, as may be applicable, in the Constitution, other laws or agreements of a covered territory or agency in effect prior to PROMESA enactment. COFINA Subordinate Bondholders equal and ratable statutory lien interest in Pledged Property is under attack.

**Tenth, Does the COFINA Fiscal Plan Abide by U.S. Constitution?**

COFINA Fiscal Plan Violates Contracts, Takings and Due Process Clauses Law of U.S. Constitution.

COFINA Fiscal Plan barter away close to \$2 billion or 46.35% of Junior COFINA bondholders Pledged Property to the Commonwealth over the next six years. If COFINA Junior Bondholders were offered a higher recovery, the Commonwealth surplus would still be to the tune of \$15 billion.

#### **Information Request From Retail Bondholders of Junior COFINA Bonds For Bond Trustee**

In addition to the above, retail holders of Junior COFINA Bonds would like to request the Bond Trustee for the following:

1. Bond Trustee Petition For Summary Judgement Ruling: A request to the Court by the COFINA Bond Trustee to reinstate summary judgement ruling. In the face of unfair indiscriminate, a summary judgement ruling could be in the 'best interests of creditors', particularly Junior COFINA Bondholders who are denied a 'statutory lien' protection in the Plan.
2. Material Forensic Investigation: Results of the forensic investigation of 800 government bank accounts holding over \$10 billion could provide material information on the Commonwealth's projected surplus prior to the COFINA Plan vote.
3. Disclosure Statement Clarification: The sketchy outline of COFINA Bonds to be offered to Existing Bondholders does not detail which COFINA Bonds (of the four series of CIBs and one series of CABs) are offered to Senior COFINA and Junior COFINA Bonds. I could not discern any 'Election Notice' that substantively informs on the distribution elections provided to Existing Bondholders upon reading the Disclosure Statement several times. I would like to request the Bond Trustee to please seek clarification on the distribution of COFINA Bonds to Existing Bondholders.
4. COFINA Governance: Junior COFINA bondholders' substantive representation on the 6-member board of directors of the reorganized COFINA

COFINA Bond Trustee Mr. Chang, Junior COFINA bondholders look to the Bond Trustee as their fiduciary that protects the statutory lien granted equally to ALL COFINA bondholders. Vulture funds and a deceptive Commonwealth have mediated a settlement that misappropriates or 'takes' Pledged Property of Junior COFINA bondholders, while neither the unorganized COFINA retail bondholders nor their fiduciaries could represent Junior COFINA bondholders' best interests.

Judge Swain, the silent majority owners of Junior COFINA bonds, retail bondholders find that statutory lien protection granted to them is not being protected from greedy Wall Street institutions and deceptive Island politicians looking to 'cram-down' an inequitable Plan on the unrepresented retail muni bond investor who 'buys and holds' Junior COFINA bonds.

The Plan's violation of the statutory lien could bring market wide implications for debt issuers. Retail bondholders, the largest holders of municipal bonds, flock to municipal bonds because state and local government issuers are known known for their outstanding payment track record governed by constitutional rights of contract, property and due process.

If this unfair Plan were to pass the voting requirements, it would be unfortunate for the municipal bond market, renowned for its safety. The Plan forces retail 'buy and hold' investors, the mainstays of the municipal market, to accept steep losses handed down from a conflicted and suspect mediation and misappropriation of Bond Trustee held funds.

Chairman Bishop, the Plan fails PROMESA's goal. Added litigation from COFINA's largest class of voters left unrepresented in the court mediations cannot be ruled out. Such litigation could only raise the cost of capital for the Island and bring related liabilities.

Judge Swain, I am sure you will appreciate that Junior COFINA bondholders do not have the ability to participate in the Confirmation Hearing where the Title III Court will determine whether the Plan of Adjustment satisfies the requirements of Title III of PROMESA, Bankruptcy law and U.S. Constitution.

I trust you will consider Junior COFINA Bondholders' reasons for rejecting the COFINA Plan of Adjustment.

Sincerely,

Seema Balwada, CFA

**Re: Illegal Cofina Restructuring Objection**

Dear Judge Swain, Rep. Bishop and Mr. Alex Chang, Bond Trustee:

**The Commonwealth vs. Cofina settlement is premature and illegal for a plethora of reasons.**

- The commonwealth has yet to produce acceptable audited financials to prove insolvency.
- The financial oversight board has not allowed creditors discovery to quantify the Oversight Board's assumptions in their fiscal plans.
- Cofina is not insolvent, was never in Title VI, a Promesa prerequisite to enter Title III.
- Trading of Cofina bonds by mediating/negotiating hedge funds and others with insider information has been allowed to continue to take place until November 20, 2018, the suggested bondholder date of record for eligibility to vote.
- The date of record for voting on the proposed Commonwealth/Cofina Agreement should be no earlier than the date Cofina was put into Title III or no later than 8/8/18 the date the initial Agreement was publicly announced by the governor.
- Unethical, maybe illegal, buying and selling has allowed insider hedge funds to purchase bonds in order to manipulate the outcome of the vote to the detriment of subordinate bondholders.
- Puerto Rico governor has introduced legislation that would change the 2006 laws that created Cofina. Changing the law to the detriment of bondholders is not legal under Promesa, the takings clause of the U.S. constitution and contract law.
- Unrepresented **secured** subordinate Cofina bondholders are being victimized (senior Cofina bondholders recovery 93%, **secured** subordinate Cofina bondholders recovery 56.3%).
- It appears the court has looked the other way allowing FOMB debt restructuring negotiations to bypass many prerequisites of Promesa. The Title III court should refer to Natural Resources Chairman Bishop's Amicus Brief filed with the Appeal Court (6/29/18) explaining how to interpret Promesa. Rep. Bishop was involved in writing Promesa.
- Creditors are expected to accept a debt restructuring without the transparency of audited financial statements, a must for restructuring debt in any bankruptcy case in any court. (most recent audited financials 2014)

Your Honor you **must not** approve this Commonwealth/Cofina settlement scheme that abuses Promesa and victimizes subordinate bondholders. This scheme to victimize subordinate Cofina bondholders, which will negatively affect the municipal bond market, perpetuated by unethical hedge funds, the corrupt commonwealth and the disgraceful Financial Oversight Board must be stopped by you, Judge Swain.

The Commonwealth vs. Cofina dispute has already affected and changed the municipal bond rating agencies criteria for rating "priority lien tax revenue municipal bonds". If the court allows Puerto Rico politicians and political appointees to ignore liens, priority of payment and bondholder rights the result of Title III Puerto Rico bankruptcy settlements will cost American taxpayers billions of dollars. The Puerto Rico Title III bankruptcy court is changing municipal bond market precedent, therefore, making it more expensive for political subdivisions to borrow money.

It appears, for political reasons, U.S. politicians **will not** risk political capital by addressing how bondholder rights and Promesa are being ignored or abused by the Puerto Rico government and the Financial Oversight Board. The long-term affect of unethical debt restructuring will confirm Puerto Rico's reputation as a corrupt and untrustworthy government.

Your Honor it is in your hands.

Sincerely,

Donna Wright

Good afternoon Judge.

As an american citizen, who lives in Puerto Rico, I want to stay that the agreement recently reached by the Puerto Rico goverment and the creditors of Cofina, is not a good one.

The goverment is paying an excesive amount, compare with the amount creditors paid for the bonus..

Instead of reach a good Agreement thinking on our people, they decide to go in favor of those who has money.

If you aprove this deal, Puerto Rico will further file another bankrupcy, because we can afford those payments..

Just think in our country and God bless you.

Petition: Cofina Plan of Adjustment incremental CAB Maturity Dates.german uribe  
to: SwainDPRCorresp 11/12/2018 01:03 PM  
From: [REDACTED]  
To: SwainDPRCorresp@nysd.uscourts.gov

Judge Swain,

Kind Regars.

I am writing to you as a 46 Year Old resident Of Puerto Rico for the past 24 Years.

First I want to thank you for your service to our island, and to say up front that I am a supporter of the Cofina Plan of Adjustment. I believe the agreement is fair and equitable to holders of Cofina Sr. & Jr. Bonds as well as GO's.

Please note I say this as someone who does not own Cofina Sr. bonds but rather is a holder of Cofina Jr. Bonds and GO's.

In a situation where the Pie of funds available for distribution is shrinking the fact that all parties have some grievances/concerns is a testament to the plan's fairness.

Nonetheless, I am writing to you with a very specific request as it pertains to the agreement.

The request is with respect not to HOW the pie is being divided but rather WHEN the Bond Maturities take place.

Specifically: Can you please work to establish incremental Zero Coupon/Capital Appreciation Bond Maturity Dates are added between the years of: 2043 and 2058.

The agreement took pains to ensure that Puerto Rico resident bondholders who invested in their government for retirement funds are able to generate retirement income. This is critical and it is greatly appreciated.

However the incorrect assumption being made is that "retirees" counting on the retirement income are current retirees vs. future retirees.

This is reflected in the fact that from 2028-2038 there will be 3 Coupon paying bonds with roughly 6 Years between Maturity Dates, and then a 15 year Time Gap until the only Zero Coupon / Capital Appreciation Bond matures in 2058.

The rationale behind this must be that the expected owners of this Capital Appreciation Bond who will hold to maturity are entities with particularly long time horizons. Mutual Funds etc.

The reality is that previously there was a plethora of Cofina Capital Appreciation bonds available with ladderred maturity dates.

This enabled an individual resident, such as myself to follow a highly recommended (see for example: Suzy Orman) strategy to fund retirement via creating a Municipal Bond Ladder with annual maturity dates throughout retirement.

Under the current agreement someone such as myself, will have to wait 15 years between the maturity of the last Coupon bond in 2043 and the Capital Appreciation bond in 2056.

In my case I would be waiting from age 71 to age 86 for my next income vs. annual maturities prior to the default.

While I can appreciate the need to simplify the number of maturity dates, a 15 year gap seems an unnecessary and onerous burden for individuals such as myself to bear.

It should be easy to remedy this situation by issuing 2-3 incremental Capital Appreciation Bond Series during the 2043 to 2056 time frame and dividing the future \$ value of the resulting bond issuance according to the net present value of when the Bonds mature.

Thank you once again for your hard work and consideration of the above recommendation.

Kind Regards.

Buenos días.

A lo mejor estos escritos no lleguen, pero más vale el intento. Fui maestra de escuela elemental por treinta años, con mucho esfuerzo. Pensé que mi vida tendría tranquilidad y descanso. Ahora con esta situación se llenará de angustia. Debido a que tendré que buscar un trabajo para poder sobrevivir, lo cual no será fácil, ya que discriminan por la edad y por la situación económica. No encuentro que sea justo que luego de cumplir con mi labor sea injustamente llevada a la pobreza e incertidumbre, por el mal manejo de los fondos del plan de retiro, por los políticos ineptos de este país.

Judge Swain,

We submit over 21,000 signatures against the COFINA agreement, gathered in less than two weeks. The people of Puerto Rico, that is, the people that are striving to survive with the consequences of decisions made by Puerto Rican and federal officers, are not present in your courtroom of debtors and creditors. They say we are debtors, but we had little say in the questionable, and possibly illegal, decisions made by our governments. Unfortunately, our government, our unelected and undemocratic Fiscal Control Board and, it seems, yourself, have not had any interest in allowing a comprehensive audit of Puerto Rico's debt to be completed.

As the letter explains, this agreement will be painful for us. We demand that you listen, and that you reflect on the names of the people whom this agreement will impact, either by forcing them to leave Puerto Rico to seek feirer pastures or to become impoverished. The people of Puerto Rico have suffered too much. Do not allow this to go through. Do not perpetuate our pain.

Eva L. Prados-Rodríguez

## Frente Ciudadano por la Auditoría de la Deuda

Recipient: Judge Laura Taylor Swain , HON. Thomas Rivera Schatz

Letter: Greetings,

Judge Swain: Reject COFINA agreement proposed by the Fiscal Control Board

We demand that Judge Swain reject the agreement with the COFINA bondholders promoted by the Fiscal Control Board, because it would drag the country into another economic crisis, cause the imposition of more austerity measures, cuts in public services and pensions, and would lead to a new debt default. Instead, we request a fair renegotiation of the agreements that is not burdensome for the country.

How? The P. de la C. 1837, presented by the Governor of Puerto Rico and recently approved by the Legislature without any sort of public participation, seeks to facilitate the agreement between the Board and the COFINA bondholders. The project circumvents the constitutional debt limits, forces the Government to pay debt for a period greater than that allowed by the Puerto Rican Constitution, and grants bondholders extensive rights over the sales and use tax (SUT) for an exaggerated period of time. Approving this project is a roadmap for more irresponsible indebtedness and will lead the government to a new default.

Why? The debt of COFINA is the largest slice of Puerto Rico's public debt, about 24% of the total. The Board argues that the deal will save 17.5 billion to the government, but the reality is that the agreement condemns the country to pay a total of 33 billion dollars, when Puerto Rico received 17 billion in loans from COFINA. In other words, the agreement forces us to pay two times what the government received in loans, for a debt whose legality has been questioned and with a country recovering from the devastation caused by an unprecedented hurricane.

In addition, the agreement privileges the most powerful bondholders, mostly vulture funds, committing the people of Puerto Rico to pay up to 93 cents per dollar of the original value of the 'senior' bonds, when most of these were acquired at 50 cents per dollar. In the case of 'junior' bonds,

several vulture funds bought these after Hurricane María, when their value was 10 to 15 cents for every dollar, but now they will receive up to 56 cents per dollar. Thus, the proposed agreement will allow the bondholders to earn two, three and even four times what they actually invested, and that profit will come from the pockets of those who pay the SUT in Puerto Rico.

The agreement also makes the COFINA bondholders the actual owners of the SUT collections for more than 40 years. That is, the agreement would bind current and future generations to pay this tax, and Puerto Rico could not do anything afterwards.

The majority of economists have warned that economic growth is not projected to generate enough revenue to comply with the agreement. In fact, projections suggest that the agreement will lead the government to a new default as soon as in six to eight years, and all at the expense of the abandonment of infrastructure, of more cuts for pensioners and workers, more reductions in essential services, and increases in cost of living. In other words, with this agreement, the country will end up more indebted and under worse conditions than before.

What can you do? Judge Swain cannot adopt this blatant theft to the people. Its duty is to reject this agreement and demand fair conditions for the country in any bondholder agreement, ones that will provide for our recovery and reconstruction and that do not require additional austerity measures.
